<b>Policy Levers and Objectives - Explanatory Note for Governments</b>	Social Impact Investment Taskforce (established under the UK's presidency of the G8)	2014	To maximise benefit and see social impact investment thrive, government has an important role to play as a market builder. As a large purchaser of social services, it is also a key actor in its own right. Government also has responsibility, as a market steward, to remove barriers and ensure that the positive intentions of social impact investment are safeguarded over time. Policymakers who seek to catalyse social impact investing will need to ensure that all aspects of the ecosystem are enabling the market to succeed.
