1	Accenture	Sir M. Visvesvaraya Institute of Technology	Health	People with Medical Needs	India	Financial: Prize Money	2,100	31 Oct 2018	<b>The following six teams have won the Accenture Innovation Challenge 2018:</b> 'Aayush', a cost-effective ingestible battery-less electronic health pill to predict and prevent heart attacks and sudden cardiac arrests. 'Aayush' records metrics such as PH level, body temperature, heart rate and myeloperoxidase protein content of a person using bio-medical sensors from the body and transmits data to a mobile app via a wearable smart patch. The solution features a built-in artificial intelligence-enabled virtual assistant, which monitors data for abnormal variations in the parameters, and analyzes and predicts a heart attack or sudden cardiac arrest 9 – 11 minutes prior to it taking place. In cases of an emergency, the solution uses GPS location to alert the nearest hospital and the person's family or caretaker group about the need for immediate medical care.
2	Accenture	IIT Madras	Energy	Other	India	Financial: Prize Money	1,050	31 Oct 2018	'Microwave Pyrolysis', which can convert waste into energy through microwave pyrolysis, an age-old technique of thermal decomposition that converts non-metal waste into forms of energy including oil, gas, and char, which have multiple uses and can be incorporated into existing product supply chains.
3	Accenture	Nitte Meenakshi Institute of Technology	Health	People in Poverty	India	Financial: Prize Money	1,050	31 Oct 2018	'EyeSee', a solution which features a virtual reality (VR) app and headset to simulate the commonly used Humphrey field analyzer tool to carry out glaucoma detection tests. The solution is more affordable and portable to use, making it more feasible to use among people in rural and inaccessible areas.
