DATA COMPARISON

Indicators	District Data	NFHS survey (2015-16)	Best in India
Mothers who had antenatal check-up in the first trimester (%)	75.91	69.28	98.26
Mothers who had at least 4 ante-natal care visits	13.3	39.9	83
Institutional birth (%)	95.4	76.9	100
Sex ratio	972	960	1000
Children fully immunized (%)	100	67.7	100
Children under 5 years who are underweight (%)	11.6	43.8	5.8
Children under 5 years who are stunted (%)	36.39	40.7	8.10
Children under age 3 years breastfed within one hour of birth (%)	100	38.4	80.5

GAPS

Infrastructure

Civic Infra

- Lack of basic facilities like toilets, etc.
- Deplorable condition of Anganwadi buildings

Ambience

- Only a feeding ground for the children
- Lack of local language based pedagogy

ECCE

- Implementation of ECCE is missing
- Bala concept is almost missing

Community

JSLPS

- Lack of basic understanding about nutrition
- Lack of co-ordination between SHG's & nutrition department

CMAM

- Community Management to tackle acute malnutrition almost non-existent
- Basic information about malnutrition is missing

Social Mobilization

- VHSND's have become another immunization day, rather a day to aware people
- Non-function of Nutrition committee of Gram Sabha's

Ground Workforce

AWW

- Lack of re-training in consonance with the digital world
- Use of workers in other unrelated activities

ANM

- Lack of re-training in consonance with the digital world
- Use of workers in other unrelated activities

convergence

- Lack of synchronized training between AWW & ANM
- Lack of co-ordination between AWW & ANM

Data Analysis

Collection

- Data collection process is improper
- Lack of training of people in data collection

Analysis

- No mechanism to analyze the data up to Panchayat level
- Lack of good data analyst in the District

3rd Party Verification

- Lack of mechanism to verify the data by the 3rd party

STRATEGY

Infrastructure

Civic Upgradation

Pedagogy Transformation

Nutritional Upgradation

Community

Community Management of Acute Malnutrition

Social Audit Capacity Building

RCH to Malnutrition training of SHG's

Ground Workforce

Coordination of AAA & Data reporting

Accountability & ability upgradation

Convergence at village, cluster & block level

Data Analysis & Monitoring

Strengthening the data collection process

Monitoring of Health & Nutrition indicators up to panchayat level

Deploying better analytical method

HELP REQUIRED

- Capacity Building of AAA in consonance with the Digital world
- Co-ordination of Health & ICDS staff
- Pedagogy development of Anganwadis
- Creation of incentive structure for the prime workers

Internal
Capacity

Infrastructure
Upgradation

- Upgradation of Civic Infrastructure of Anganwadis
- Nutritional Upgradation of Anganwadis in the form of Kitchen gardens
- Introduction BaLa in the Anganwadis

Data Quality
&
Augmentation

Community
Capacity
Building

- Data Collection Process
- Dashboard up to Panchayat level
- GIS mapping of all health & ICDS infrastructure
- Third party auditing

- Setting up of Community Based Management of Acute Malnutrition (CMAM)
- Training of SHG's in nutrition
- Localized RUTF/RTE substitute
- Screening capacity of the community (Social Auditing)
