

Disaster Tech Innovation Application Form

This form is required to be completed to enter the Disaster Tech Innovation Competition.

Below are the key aspects of the form that the applicant must complete:

- 1) Provide answers to all questions
- 2) Submit a presentation deck
- 3) Submit team bios
- 4) Complete the “Business Model Canvas”

Please note that this Google form will not allow saving part way through completing. Therefore, we recommend you download a PDF version of the form [here](#) to prepare the answers in advance before populating the form’s answer fields.

Your application will be assessed on the following areas:

1. Social impact
 - The relevance of the Disaster Tech solution to the intended community;
 - The benefit that the community would receive and potential long-term impact to the issue
2. Use of technology
 - Technology can significantly increase impact made;
 - Technology is scalable with relative ease;
 - Not limited to just tech organizations - includes organizations using technology to scale the impact of their efforts in disasters
3. Feasibility and sustainability of the business / operating model
 - Commercial and financial viability of the business idea / operating model;
 - Results of pilot testing, if applicable;
 - For not for-profits, operating model will be assessed on how relevant the product/service will be for the intended communities and robustness of plans for ensuring sustainability
4. Team's capability and commitment
 - A strong founding team, preferably with senior members with different expertise leading the operations of the organization
 - Team members have successful track-record in implementation
5. Innovativeness
 - Creative and enterprising ideas, as well as unique aspects of the business/operating model
