

VIRTUAL LEARNING SERIES

Supporting social enterprises navigating COVID-19

INCREASING THE RESILIENCE OF ENTERPRISES IS KEY TO RECOVERY

COVID-19 has upended jobs, livelihoods and markets across Asia-Pacific.

This has disproportionately impacted social enterprises that continue to address social and environmental challenges exacerbated by the pandemic.

The recovery of social enterprises will be essential to the region's economic recovery.

More targeted capacity-building and a greater commitment of both financial and non-financial resources are required to advance the recovery of social enterprises in the region.

COLLABORATING TO EQUIP SOCIAL ENTERPRISES

CONNECT

Meet and build a community of practice with other social enterprises operating in similar markets or causes

Aggregates efforts across diverse member programmes to identify synergies

LEARN

Gain social investment insights, best practices and industry trends from resource-providers

Learn through a range of interactive formats – including peer-facilitated learning, fireside chats and webinars

LEAD

Provides a platform for collaboration to drive awareness and support for social enterprise development

Inspire social enterprises to harness cross-sector resources to build back better

ARE YOU A SOCIAL ENTERPRISE THAT MEETS AT LEAST ONE OF THESE CRITERIA?

Provide products or services to, or employ marginalised, vulnerable or remote communities

Have adapted or pivoted their business model in light of COVID-19

Are women-led and/or have strong gender representation

Operate in the sectors of education, livelihoods, health and nutrition or gender
