11. Types and estimated value (in USD) of non-financial contribution
12. Main markets of activity
13. **Project Overview** | Summarise the collaborative project in 300 - 500 words.

Project Details

14. **Strength of Collaboration (30%)**

The project consists of, engages with, and is co-created through consulting with a number of sectors and people representing different areas of expertise and demographic groups. The project engages with multiple stakeholders within the public and private sectors, and civil society, whether along supply chains, within sectors or geographies, and collaborates with them to integrate their views and perspectives.

Guiding questions

- How many stakeholders are involved in this initiative and how are their strengths harnessed to achieve the goals of this collaboration?
- How have you leveraged networks to achieve the goals of this project?
- What are the additional benefits that the collaboration has brought to this project?

Please respond in 300 - 500 words.

15. **Impact Potential (30%)**

The project addresses one of the Asia Pacific's most pressing problems, and it has a cohesive plan to drive change and achieve long-term impact.

Guiding questions

- Does the project have a clear theory of change framework?
- What are the project's achievements in terms of short and intermediate-term outcomes (as applicable)?

Please respond in 300 - 500 words.

16. **Transformative potential & Innovation (20%)**

The project demonstrates the use of innovative approaches, practices and technologies that could potentially disrupt an unsustainable and unjust equilibrium positively to solve global, regional or industry challenges. It is game-changing and future-oriented.

Guiding questions

- How is the project game-changing?
- How does the project paint a transformative picture of the future?
- Please describe how the project leverages innovations in approaches, practices, technologies, funding approaches or other culture-enhancing elements to solve the challenges at hand.

Please respond in 200 - 300 words.

17. **Growth Potential (20%)**

The success of the project can be replicated in different regions or markets, or by different enterprises and can be grown as more stakeholders join.

Guiding questions

- What factors make this project replicable in different markets or regions? Is there any intention to do so?
- Can the project be scaled up to allow other stakeholders to join?

Please respond in 200 - 300 words.

18. Do you have any verifiable information such as video clips, photos, PPT slides, pdfs? Please select carefully and share with us **no more than 5 document links**. These documents must be uploaded to an external storage service e.g. Google docs / Youtube.

Please type 'NA' if there are no attachments.

19. I confirm that the information given in this form is true, complete and accurate.

Yes

Notification

Applicants must not submit any false documents or information to apply, and must follow the requirements stated in the overview. If the provided information does not meet the requirements, AVPN reserves the right to decline the application. Should the investigation prove the information provided by any organisations to be false, they will be disqualified from the award.

Information submitted by applications may be used in marketing, promotion and media engagement by AVPN.
